

Goal: To achieve a high continuous R-value that will withstand water as well as rodent infestation. The best product to use is rigid foamboard (either foil faced or pink and blue).

R-Value per inch:  
Foil Faced = 6.5  
Pink or Blue = 5.0

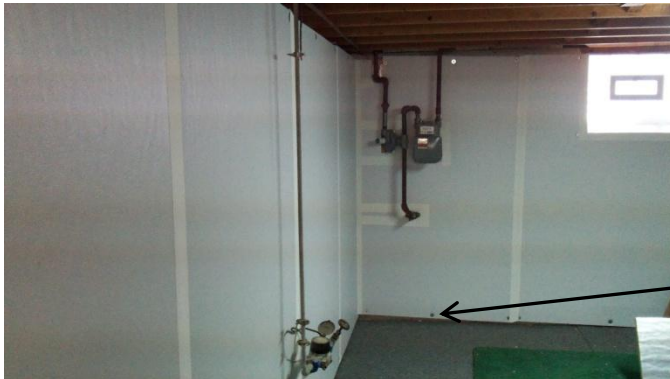

2 x 2 Furring

Basement Wall before insulation.

2 x 2 Furring

Basement wall with foil faced foamboard. All seams and fasteners are taped with foil tape.

Foamboard  
attached to 2 x  
2 Furring Strip

Basement walls with Thermax® fire rated foamboard installed
